

Glenair Connectors Inc. & Saguaro Technical Sales

A Product and Capabilities Overview

Free workshop by Brandon Lootens and Manuel Sanchez

Friday August 27th, 2010 11:30am - 1:00pm
COSMIAC Facility
2350 Alamo Av. SE Suite 100

An important aspect of electronics and hardware design and integration understanding how to take the ideas from pencil and paper to product in your hands. Many suppliers provide technical information resources as well as hardware samples to help make your design a reality. Glenair Inc. and Saguaro Technical Sales excel in delivering quality customer service and product samples to help you in an effort to maximize your productivity.

This presentation will give you a brief look at the product offerings as well as some of our manufacturing capabilities.
