

LAB Assignment #4 for ECE 443

Assigned: Tue., Oct. 9, 2012

Due: Thur., Oct. 11, 2012

Description: Implement and test one or more of VGA modules from the lecture notes

Simply copy the VGA code examples from the lecture notes into one or more projects and demo them in class.

We will continue our discussion of the VGA code in class this week.

Laboratory Report Requirements:

Grading:

The grading from this lab will be based entirely on your in-class demo. Bonus points will be given for any implementation feature that goes above and beyond the requirements.
